B2(f)-(h)

Taxable and exempt benefits

Lecture example 1-Solution

		£
2023-24 Use of asset 2023.10.6-2024.4.5	1,000×20%× 6/12	100
2024-25 Use of asset 2024.4.6-2025.4.5	1,000×20%	200
2025-26 Use of asset 2025.4.6-2025.12.31	1,000×20%× 9/12	150
Gift of asset	Higher of MV when given 600 MV when first provided -benefit already assessed 1,000 — (100+200+150)=550	600
		750

Lecture example 2-Solution

2025.11.1- 2026.4.5　5 months	£
General charge	
1,200 ×　5/12	500
Additional charge	
(150,000 — 75,000) × 3.75% ×5/12	1,172
Rent paid by employee 50×5	(250)
Taxable benefit	1,422

Lecture example 3-Solution

a) If the accommodation is job-related	£
Accommodation benefit	0
Accommodation living expenses benefit is lower of:	£
Expenses	1,800
10% × (7,000+2,000)	900
Accommodation living expenses benefit (lower amount)	900

Lecture example 3-Solution

b) If the accommodation is not job-related	
Accommodation benefit	£
Annual value 8,000×8/12	5,333
Additional Charge	
(375,000 — 75,000) × 3.75%×8/12	7,500
	12,833
Accommodation living expenses benefit	1,800

Lecture example 4-Solution

Alin

128g/km rounded down to 125g/km

Percentage = 17% + (125 — 55)÷5% + 4% (diesel) = 35%

Benefit = £33,500 × 35% × 6/12 = £5,863

Chris

Official CO2 emission rate of 20 grams per kilometre and an electric range of 80 miles: Rate 6%

Benefit = £28,900 × 6%=£1,734

Lecture example 5-Solution

214g/km rounded down to 210g/km

17% + (210 — 55)÷5×1% = 48%

Percentage = 37% (maximum)

Car benefit = 37% × (£22,600 – £3,000) – £1,200 = £6,052

Lecture example 6-Solution

(a) 124g/km rounded down to 120g/km

Percentage = 17% + (120 — 55)÷5×1% = 30%

Car benefit = £15,000 × 30% — £270 = £4,230

Fuel for car benefit = £28,200 × 30% = £8,460

(b)Since partial reimbursement of private use fuel does not reduce the fuel benefit

Car benefit = £15,000 × 30% = £4,-500

Fuel benefit = £8,460

Lecture example 7-Solution

Average method	£
(100,000+70,000) ×1/2×3.75%	3,188
Less: Interest paid (100,000×2/12+85,000×6/12+70,000×4/12)×1%	(825)
	2,363
Strict method	£
(100,000×2/12+85,000×6/12+70,000×4/12) ×3.75%	3,094
Less: interest paid (100,000×2/12+85,000×6/12+70,000×4/12)×1%	(825)
	2,269
Taxable benefit for the tax year 2025-26 (take lower)	2,269
