B4(a)-(e)
Property income

Lecture example 1-Solution

Lara	£
Taxable premium 35,000 － 35,000×(15 － 1)×2%	25,200
Rent	4,800
Property income assessment	30,000

Gray
Relief available = 25,200÷15 = £1,680 per annual
£1,680×6/12= £840

Lecture example 2-Solution

Cash basis	£
Rental income received 2,100×9	18,900
Less insurance premium paid on 1 September 2025	(840)
Less other expense	(330)
Property business income 2025-26	17,730
Accruals basis	£
Rental income receivable (6 June to 5 April) 2,100×10	21,000
Less impairment loss (6 March to 5 April) 2,100	(2,100)
insurance premium payable (1 September to 5 April) 840 × 7/12	(490)
Less other expense	(330)
Property business income 2025-26	18,080

Lecture example 3-Solution

	£
Employment income	80,000
Property income (W)	10,770
Total income	90,770
Less: personal allowance	(12,570)
Taxable income	78,200
37,700 × 20%	7,540
(78,200 － 37,700)×40%	16,200
	23,740
Interest relief 4,000×20%	(800)
Income tax liability	22,940
Working:	£
Rent received 1,000×12	12,000
Other expenses	(1,230)
Property income	10,770

Lecture example 4-Solution

	£
Rents for the year	10,500
Less: Insurance	(380)
Repairs and maintenance	(1,150)
Replacement of domestic item 399 − 99	(300)
Property income	8,670

Lecture example 5-Solution

	£
Property income	22,400
Less: current year loss	(10,400)
	12,000
Less: loss brought forward	(12,000)
Property business income	0
Loss carried forward to 2026-27 50,000 － 12,000	38,000

Lecture example 6-Solution

Susan has two options:

Actual profit:

	£
Rental income	9,020
Less: allowable expenses 100+70+200+80	(450)
Taxable income	8,570

Alternatively, if rent a room relief is claimed,

£9,020-£7,500 = £1,520 is taxable income.

Therefore, Susan would be advised to claim rent a room relief.
